Mid module feedback

Number of non-contact hours

Worksheets: good.

Class meetings: good.

Extra resources: good.

Videos: good.

Lab tutors: good.

List of topics: good.

Vince: good.

More explanation of coursework please.

"Lab work to be more worked examples, not Q and A."

"Labs are too close to the lecture times."

"Getting carried away on a particular example, going really quickly makes it hard to copy or understand code."

"Upload documents from lectures pls."

"The code you write in lecture could possibly be made available on learning central."

"People are shy so the silence until someone speaks can sometimes be unhelpful"

"Lecturer can come across as condescending and makes me feel discouraged to participate"

"I feel like I can't ask for help because you're intimidating and I'm stupid."

"Lecturer can come across as condescending and makes me feel discouraged to participate"

"I feel like I can't ask for help because you're intimidating and I'm stupid."

"Vince is very helpful"

"When someone walks in late please ignore them."

"Answers to the exercises after certain amount of time."

"More examples."

"Lectures seem less useful that other modules with resort to learning the work but that seems by design with all the info easily available in youtube videos.."

"Friday lectures sometimes feel like they're just repeating what was said on Monday."

"We don't go through the theory in the lectures."

"Sometimes tutors are unable to see where my code is wrong."

"Lack of homework means that incentive to work outside of lectures is hard to find."

"iOS app drains battery life."

"Nice scarf."
